# You want to work smarter /This is Why you should empower your team with our next-generation technology.

These next generation MFPs break new ground in office efficiency and ease of use. With advanced ergonomic design and forward-thinking connectivity, they're designed to perform right at the heart of your information infrastructure, reducing costs and optimising workflows.

### **Empowering your team**

Whichever model you choose - 60, 50, 40, 35 or 30 pages per minute - our smart technology will help everyone in your team work the way they want to.

An advanced Single Sign-On capability improves productivity by connecting people to their favourite cloud storage services such as Google Drive™, SharePoint® and OneDrive®, direct from the control panel. Printing directly from the cloud and scanning documents from the MFP up to the cloud takes just moments. Sign on once, access everything!

MOTION SENSOR WAKES THE MFP FROM SLEEP MODE

The screen lets you drag and drop menu icons for faster access to your frequently used functions and supports multi-touch pinch and spread gestures. A preview function enables easy viewing and editing of documents prior to printing.

And as no one likes interruptions, you'll be reassured to know that you can even top up the toner\* and paper supplies without pausing the print/copy run.

# Time is often limited /This is Why our MFPs are designed to do so much more.

All MFPs can print, copy and scan. But our range of next generation MFPs will do so much more. They can act as a print server to give you 'Pull Printing' capability. That means you can use the convenient Print Release feature to print your documents at any Sharp MFP that's on your network\*1.

Not only does this ensure confidentiality because your documents are never left unattended, but it adds convenience by eliminating the need to carry piles of paper around with you.

CLICK TO SEE OUR 'PRINT RELEASE' VIDEO CLIP

### First class scanning

Scanning is very fast at 200\*2/80\*3 impressions per minute and the Auto Colour Mode lets you process mixed batches of colour and black & white documents automatically, even if they are of different sizes and weights. Just stack them in the 150-sheet Duplex Single Pass Feeder (DSPF)\*2 or the 100-sheet Reversing Single Pass Feeder (RSPF)\*3 and let the MFP do the rest.

FAST SCANNING VIA THE DSPF OR RSPF

<sup>\*1</sup> The Print Release function can be used from any of five network-connected printers.

A powerful Optical Character Recognition feature enables you to scan your document in a range of formats including fully searchable PDF files as well as editable Microsoft Office format such as Word, PowerPoint or Excel. The need to re-type documents that you only have in hard copy is completely eliminated whilst ease of accessing and finding information is vastly improved.

CONVERT SCANNED DOCUMENTS INTO EDITABLE OFFICE FILES AND SEARCHABLE PDFS WITH OCR If you have Microsoft Office files on a USB memory stick you can simply plug into the MFP, select your files and start printing. Scanning to the memory stick, or to the cloud or for immediate output, is just as easy.

# Effective teams need efficient technology /This is Why our next-generation MFPs are optimised for productivity.

The smart technology of these next generation MFPs will transform the productivity of any workgroup. Your whole team will find that printing, copying, scanning and finishing documents is fast, easy and efficient. But that's just the start.

If you couple one of these MFPs with Cloud Portal Office and one or more of our Optimised Software Solutions, you'll see productivity elevated to an even higher level.

### **Cloud Portal Office**

Our award-winning cloud-based document management system lets you capture, store, manage, share and retrieve all of your business documents safely and securely, from any web enabled device including phones, tablets, PCs, Sharp MFPs and our BIG PAD interactive display solutions.

When enabled on one of these new MFPs, everyone gets on-demand, walk-up access to every document they've stored in the cloud. Just log on at the control panel, browse and print. You can also scan automatically indexed documents directly to a folder in the cloud, and send email alerts to colleagues who need them, all from the MFP.
